# Getac Software Product List

- Getac Driving Safety Utility
- Getac KeyWedge Barcode Reader Utility
- Getac VGPS Utility
- Getac OEMConfig
- Getac Voice
- Getac Monitoring/Management – Agent (ControlHub)
- Getac SmartUpdate

## Checking the Model Name

Some Getac models have different generations. Models after the first generation will be indicated by the letter **G** and a number (starting from 2) in the long version of the model name. Models of the first generation will not be indicated.

To know which generation you have, check the bottom of your product and find out the model name containing the letter G and a number. The example below shows where the generation number is.

Model name with generation number (starting from 2)

# System Requirements

## Getac Driving Safety Utility

Categories	Requirements
Hardware (Getac models)	A140G1, A140G2
	B360G1, B360G2, B360G3, B360G3 Plus, B360G3 Pro
	EX80
	F110G2, F110G3, F110G4, F110G5, F110G6, F110G7
	F120
	G140
	K120G1, K120G2, K120G3
	S410G4, S410G5
	S510, S510AD
	T800G2
	UX10G1, UX10G2, UX10G3, UX10G5
	V110G2, V110G3, V110G4, V110G5, V110G6, V110G7
	V120
	ZX10G1, ZX10G2
	ZX70G1, ZX70G2
	ZX80
	<u>NOTE for models without the GPS module (mounted on the PCBA of the device):</u> Only “Indoor” mode is available, in which the screen blanking feature works by means of motion detection. “Outdoor” mode, which requires GPS, will not be available and cannot be selected.
<u>NOTE for Windows OS and Android OS devices:</u> - Programs for Windows OS and Android OS are separated programs. - Programs for Android 5.1/6.0/7.1 (ZX70G1), Android 9/10 (ZX70G2), Android 11/12 (ZX10G1), and Android 13/15 (ZX10G2/ZX80) are separated programs.	

Operating system	Windows 10/11 Pro
	Android 15, Android 11/12/13, Android 9/10, Android 5.1/6.0/7.1
Internet connection	When installing the program for the first time, Internet connection is required for software activation. Once the program is installed, Internet connection is not required for the program's daily operation.

# Getac KeyWedge Barcode Reader Utility

Categories	Requirements
Hardware (Getac models)	A140G1, A140G2
	EX80
	F110G3, F110G4, F110G5, F110G6, F110G7
	F120
	K120G1, K120G2
	T800G1, T800G2
	UX10G1, UX10G2, UX10G3, UX10G5
	V110G3, V110G4, V110G5, V110G6, V110G7 (models with the rear camera)
	V120 (models with the rear camera)
Operating system	Windows 10/11 Pro
